1. For January to May 2018, data for airports using Primary Inspection Kiosks (PIK) are based on PIK data. For March to December 2017, data for PIK airports are based on preliminary modelled estimates and will be revised at a later date.
2. When reporting in PIK instead of E311 declaration cards, note that Canadian residents returning by plane from overseas countries via the United States are more likely to report that they are returning from the United States and not from overseas via the United States. Use caution when making direct 2017-2018 comparisons with these categories.
3. Excludes immigrants, former residents, military personnel, diplomats and crews.
4. Entries and re-entries through or by way of the United States.

1. For January to May 2018, data for airports using Primary Inspection Kiosks (PIK) are based on PIK data. For March to December 2017, data for PIK airports are based on preliminary modelled estimates and will be revised at a later date.
2. When reporting in PIK instead of E311 declaration cards, note that Canadian residents returning by plane from overseas countries via the United States are more likely to report that they are returning from the United States and not from overseas via the United States. Use caution when making direct 2017-2018 comparisons with these categories.
